

Awareness & Accountability

Course Description:

Where do you stand on the Accountability Ladder? Are you making excuses, blaming others, or reacting instead of responding? The Accountability Ladder serves as a guide for your actions and mindset. Learn how to ascend the ladder for increased success and fulfillment. Awareness of your position is crucial for success.

Course Objectives:

Most people function at a very low level of awareness. Rather than being aware of their circumstances, they are controlled by them. When we begin to raise our awareness, we begin to take control of our lives. We stop blaming and start taking responsibility and control.

In this course, participants will:

- Learn the Seven Levels of Awareness.
- Understand what level you may be on and how to climb to higher levels.
- Learn why "The Masses" are usually wrong.
- Redirect your life intentionally.
- Learn what each rung of the Accountability Ladder looks like.
- Understand the mindset necessary to climb up "The Accountability Ladder."
